

Cyber Patrol Non-disclosure agreement

Thank you for taking the time to learn more about our efforts to combat the evil of commercial sexual exploitation. Prostituted persons, regardless of age or gender endure a level of sustained violence that few of us will ever encounter. This violence is driven by the demand for paid sex and facilitated by increasingly organized criminals. The men who buy sex perpetuate an evil economic system that has led to a global crisis of sexual injustice. **Better Men** have a singularly unique role to play in the fight to eradicate this prolific form of slavery.

Tonight, you will hear about an opportunity to engage this battle in a creative and sustainable way that has proven highly effective in disrupting local online commercial sex markets. By design, the work is done in secret and our ability to maintain an element of surprise is critical to our success in disrupting demand. *You must also understand that our ability to maintain the anonymity of both our volunteers and our methods is critical to our security.*

Our names are not important. Our message is. Therefore, it's necessary for us to maintain a strict culture of confidentiality. Before we begin our meeting, please read and sign the rest of this agreement.

- I agree **NOT** to “share” my knowledge **of** or participation **in** the initiative online or on any social media platform including but not limited to Facebook, Twitter or Instagram.
- I agree to limit my sharing of any information related to this initiative to my spouse, close family and only men who are potential recruits.
